## WHY SKI COPPER MOUNTIAN???

Copper Mountain is one of the few ski areas in Colorado that offers nearly 360-degree skiing via three separate peaks: Union Peak, Copper Mountain, and Tucker Mountain.

Although Copper features tons of expert and off-piste, above-treeline ski terrain, what everyone will tell you is that the groomers here are bar none. Served mostly by high-speed chairlifts, and in some cases six-pack chairs, the groomed terrain in Copper follows a fall-line path that includes everything!
